Re: U.S. Patent Application Entitled: VOICE MENU SYSTEM
Your File: P3109
Our File: APL1P283

Dear Alex:

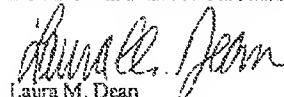

Thank you for your comments concerning the above-referenced patent application. We have now revised the application in accordance with your comments. We made a few minor changes since you last spoke with Morgan.

At this time it is necessary to sign the enclosed standard forms. One form is a Declaration and Power of Attorney form, and the other form is an assignment of rights to Apple Computer, Inc. After your final read through of the patent application (assuming no additional changes are needed), please read and then sign and date each of the enclosed forms by your name. Afterwards, please return the application together with the executed documents so that we may file them with the U.S. Patent and Trademark Office.

Please note that by law this application (as filed) will be published in the U.S. at 18 months from the earliest priority date. If the application will not be filed internationally, you may choose to request nonpublication, but this request must be made upon filing the application. You also have options of early publication and republication, but as these issues are complex, please telephone us should you have any questions on any aspect of publication.

Finally, we would again like to remind you of our duty to disclose the most pertinent prior art of which you are aware to the Patent and Trademark Office. If you can think of any pertinent references or patents, or any similar existing technology, please let us know. The duty to disclose prior art continues until the patent actually issues; if you become aware of other prior art in the future, please let us know.

Best regards,
BEYER WEAVER & THOMAS, LLP
